Re: Revision to Infrastructure Rider  
(IR) Rate 56 Docket No. EL20-  
009

Montana-Dakota Utilities Co. (Montana-Dakota) herewith electronically submits the changes to the Company's proposed rates filed on February 28th to update the revenue requirement reflecting the close out of only Phase 1 of the Mandan Substation project. Phase 2 is expected to be placed in service during 2021 and is expected to be included in next year's annual filing. Also, the revenue requirement has been updated to reflect the bids received for the Sidney Transmission line project, reducing the total costs from \$1.4 million to \$782,950. The revisions result in a reduction in the revenue requirement of \$7,667.

A bill insert to be provided to customers upon approval of the revised rate is also provided as Attachment F. The bill insert provided in the February 28th Submission as Attachment F was a notice regarding the filing.

Sincerely,

Travis R. Jacobson  
Director of Regulatory Affairs
