Re: Notice for Start of Construction
Wild Springs Solar, LLC
Wild Springs Solar Project

Dear Landowner:

Wild Springs Solar, LLC (“Wild Springs”) plans to commence construction of the Wild Springs Solar Project (“Project”) in Pennington County, South Dakota, on October 20, 2022. Enclosed for your information, please find the following Project-related document:

1. A copy of the Final Decision and Order Granting Permit to Construct Facilities and Notice of Entry (“Order”) issued by the South Dakota Public Utilities Commission (“Commission”) to Wild Springs for the Project.

Wild Springs has entered into an agreement with Ames Construction (“Ames”), who will be constructing the Project.

For your safety and the safety of the workers on the Project, we thank you in advance for your cooperation in the following safety practices:

- **Solar array worksites:** The Project involves multiple individual worksites. These worksites will involve heavy equipment and many moving parts. Please do not enter the worksites, either while workers are present or while workers are not present. We ask that you obey all warning signs and do not enter coned or taped off areas.
- **Road worksites:** The Project includes improving some roadways and working alongside the road. When workers are present, please reduce speeds to 30 mph or less and obey all warning signs. Watch for flaggers, who may occasionally slow or stop traffic. Be prepared for altered traffic patterns. While we will do our best to reduce temporary road closures, some may be required to protect workers and the public.
- **Construction traffic:** The Project involves transporting construction materials, facility components, and personnel. Please follow all warning signs and watch for the escort vehicles. While the construction vehicles will do their best to keep traffic flow as normal as possible, slow-moving construction vehicles may cause delays on smaller roads, similar to the impact of farm equipment during planting or harvest. Please give them the right of way when possible.

We expect you may have questions as construction approaches and commences. Please direct your questions to Chip Lacasse, Construction Senior Project Manager, who can be reached at:

Email: chip@nationalgridrenewables.com
Phone: 1-605-202-7273

Chip Lacasse is managing the Wild Springs construction process and would be happy to answer your questions.

The Commission granted Wild Springs a permit to construct the facility on December 4, 2020, subject to certain conditions. A copy of the Order and permit conditions is attached. For your information, the Commission's address, phone number and website are as follows:

Public Utilities Commission
Capitol Building, 1st Floor
500 E. Capitol Ave.
Pierre, SD 57501-5070
Phone: (605) 773-3201
Website: puc.sd.gov

We look forward to working with you during and after construction of the Project.

Sincerely,

The Wild Springs Solar, LLC Team
