---

Ihanktonwan DOT and the Yankton Sioux Tribe is aware that NorthWestern Energy intends to serve pathway lighting in Marty, SD. We are aware that this lighting is partially in Charles Mix Electric's service territory and a service exemption is needed. We would like to move forward as soon as possible.

Thank you

Brad-

Charles Mix Electric has looked at the service in Marty South Dakota and has decided to release the load to Northwestern Energy. The release is ONLY for the lighting of the walkway. We will not release any further load or meters in this area for future development.

While being determine that the load of this project was split between CME and Northwestern, the service placement was installed on the Northwestern territory as set forth by the PUC. We felt that it was unfair to the consumer to pay for two meter charges and also the extra expense involved in the extra equipment to be installed.

Please note the letter that was signed by Russell Gall, General Manager of Charles Mix Electric, approved by the board and attorney of CME releasing this service ONLY.

Thanks,

**Chad Loeffler**- *Line Superintendent*
