Complaint Information - Please explain your complaint in detail : "Black Hills Energy's proposed amendment (EI21-011) to its Cogeneration and Small Power Production Service Tariff will allow them to force new renewable energy customers to sell the electricity they produce to Black Hills Energy at a low rate and sell that back to the customers at a high retail rate. We believe this tactic is an extreme overreach by a regulated utility that will eliminate advanced energy development opportunities, kill jobs, and hurt economic development in the Black Hills. If approved, this will not just impact a few - this will affect us all.

Did you speak to a supervisor from your utility company? : No

If 'Yes', what was the result? :

Are you subject to disconnection? : No

What do you think the company should do to resolve your complaint? : Do not present this amendment for passage.
