Mr. Keffeler,

We appreciate your effort to assist the Public Utilities Commission staff members working on EL21-011, by attempting to retrieve and provide data for our use in analyzing specific scenarios affected by this docket.

You verbally relayed your request to staff that you wish to share your message with the PUC commissioners that will determine the outcome of this docket. Therefore, your message is being posted under Comments and Responses in this docket along with this response.

As explained in the Contact PUC guidelines posted online, <https://puc.sd.gov/contact/guidelines.aspx>, discussions about an open docket with any commissioner outside of a public, noticed meeting are not appropriate, so information to be shared with commissioners must be posted in the docket.
