Subject: Fwd: [EXT] Fwd: Stop the Stupidity BHE Renewable Energy Destruction. ACTION: Today

I would like to add more!!!

If Black Hills Energy is so concerned about rates, they should pay me 6.9 Cents a kwh (the current charge to BHEC customers) instead of the 2.3 cents I am paid from my power generation. If that is how they gauge fairness. I did not complain about fairness until now!!! After all, they are also a customer of mine too, I should be able to charge them the same rate!! My excess power goes out into same grid, with everyone else. If they want fairness, so should I!!! I know if BHE gets away with this, BHEC and all the remaining South Dakota power companies will follow suite and will directly affect me in the future. I have skin in this game!!!
