Complaint Information - Please explain your complaint in detail : I'm writing to express my concern for the proposed requirement to sell solar generated power to BHP for nearly nothing. That maneuver would not only be inequitable - because it doesn't treat other power inputs into the grid (from gas generators, etc.), but it also moves us in the wrong direction in terms of lessening our dependence on coal, a major source of CO2 in our atmosphere.

Did you speak to a supervisor from your utility company? : No

If 'Yes', what was the result? :

Are you subject to disconnection? : No

What do you think the company should do to resolve your complaint? : Try to encourage and enlist as much renewable energy from as many sources as possible in order to move towards a sustainable future.
