**Subject:** Re: [EXT] EL21-018

Dear PUC,

I would like to request the attached information be attached to the docket EL21-018 - In the Matter of the Application by North Bend Wind Project, LLC for a Permit to Construct and Operate the North Bend Wind Project in Hyde County and Hughes County, South Dakota along with the following explanation:

Attached are two images from the same application. Red is no spray on; green is spray on. Yellow is the Google Earth ruler. The first image shows the distance for one of the shorter turns in the field: 2,273 feet (0.43 miles). This is a turn from when the aircraft has some of the weight off of it.

The second image shows the distance for a longer turn: 9,147 feet (1.73 miles). This would be for when the aircraft is fully loaded.

I have attached a letter of permission for use for the map.

Appreciate your help!

Andrea
