Subject: Eagle Pass Bin Site

**** SECURITY NOTICE ****

This is an email from an EXTERNAL source. Please exercise caution and DO NOT open attachments or click links from unknown senders!

Eagle Pass Lodge LLC is preparing to build a new grain storage facility at 34686 Hwy 14, Ree Heights, SD. When fully completed, this facility would be capable of storing 480,000 bushels of grain. This new facility will require 3 phase electricity to run the fans, elevators, and conveyors. Currently Dakota Energy's nearest 3 phase power is roughly 9 miles away from our building site. Northwestern Energy has a 3 phase line roughly 1 mile south of our building site. Since the property is currently in Dakota Energy's Territory, we are requesting that the new facility located in the SE corner of the SE 1/4 of Section 4-112-70 be transferred to Northwestern Energy.

Let me know if you need any additional information. Thank you
