RE: In the Matter of the Application by Triple H Wind Project, LLC for a Permit of a Wind Energy Facility in Hyde County, South Dakota – PUC Docket: EL19-007
and
In the Matter of the Application by North Bend Wind Project, LLC for a Permit to Construct and Operate the North Bend Wind Project in Hyde County and Hughes County, South Dakota – PUC Docket: EL21-018
MAGT File: 7446 and 7900

Dear Ms. Van Gerpen:

Because of the proximity of the North Bend and Triple H Wind Projects, the Triple H ADLS system must be shared with North Bend. As such, there will be an interim period expected to run from late November of 2023 to mid-January of 2024 in which the triple H Wind Farm FAA light system will not be controlled by the ADLS system. The FAA lights on the towers, therefore, will remain on during this interim period. Plans are in progress to dismantle and relocate the existing ADLS tower to a location between the North Bend Wind Project and Triple H Wind Project. The new ADLS System location will service both Projects AND is expected to begin service on or about February 1, 2024.

Very truly yours,

MAY, ADAM, GERDES & THOMPSON LLP
