RE: MidAmerican Energy Company

Dear Ms. Van Gerpen:

The accompanying revised electric tariff sheet issued by MidAmerican Energy Company ("MidAmerican") is transmitted to you for filing:

MidAmerican Energy Company
Section No. 3:

3rd Revised Sheet No. 48

Canceling 2nd Revised Sheet No. 48

Effective: March 22, 2022

With this filing, MidAmerican is proposing to revise its tariff for Rate SAL – Street and Area Lighting to add new rates for customer-owned light emitting diode ("LED") lighting options. The proposed rates were calculated using the same methodology as approved in Docket No. EL21-030 and workpapers supporting these calculations have been included with this filing.

MidAmerican's current tariff only provides service for customer-owned LED lighting service for lights up to 249.9 watts. However, MidAmerican has been approached by customers wanting to install customer-owned LED lighting at higher wattages. To serve these higher wattage lights, MidAmerican is proposing to add eight new customer-owned LED lighting rates to accommodate lights up to 489.9 watts.

Please contact me at (563) 333-8382 or diane.votino@midamerican.com if you have any questions.

Sincerely,

/s/ Diane Votino
