Subject: [EXT] Xcel Energy proposed rate increase, Docket #EL22-017

To whom it concerns -

please consider this resubmitted email per additional input from you as a written objection to Xcel Energy's proposed rate increase as of January 1, 2023. We request the SDPUC to suspend this rate increase and hold a public hearing to determine whether it is necessary and should be allowed.

We consider this to be an excessive rate increase and we are concerned about this rate hike and the quality of the current energy systems they are proposing.

Sincerely,

James D and Lorraine P Rose
