Xcel Energy		Data Request No.	2-8
Docket No.:	EL23-013		
Response To:	South Dakota Public Utilities Commission		
Requestor:	Eric Paulson		
Date Received:	October 18, 2023		

Question:

Explain why the participation, kWh savings, and kW savings for the Peak and Energy Control program were so much more than budgeted yet costs were well below budget.

Response:

As provided in Discovery Request 2-6, the budget for ERS is primarily used for administrative purposes. Customer incentives are discounts on electrical prices as a function of the electric rate case. Therefore, the budget is typically neither a reflection of the number of participants nor the energy savings estimated for signing up for the program.
