Data Request:

Explain what is meant by the phrase “relate to bill processing and administration” in the Introduction section on page 1 of the Petition.

Response:

The phrase “relate to bill processing and administration” was intended to describe two items. First - that our current proposal has no current revenue impacts on any customers. Second, it prematurely implies that our future new methodology for Real Time and System Marginal Energy Pricing would impact our current administration and bill processing procedures. In hindsight, the latter wasn't necessary to provide support to this filing.
