To Whom It may concern

We are residents of [REDACTED] Brandt, SD 57218 Approximately 1 mile North of this proposed project by Missouri River Energy Services.

We do not wish to see this project allowed. We have concerns that the land is on a wetland area and in close proximity to several farm families within a 2 mile radius. We have concerns with the proposed amount of diesel fuel that will be needed to source this plant. That is a lot of traffic going down this road that is already busy with agriculture activities and school bus routes for both school districts.

We currently have wind tower noise and hear noise from the Astoria Plant as well. Adding another project such as this will definitely impact our peaceful farm.

As emergency responders both EMS and Fire we have concerns on the capacity of our responders to be able to provide care and fire suppression if needed.

Thank you for your consideration

Sheila and Bryon Monnier
