Subject: [EXTERNAL] Re: Anticipated Construction on Your Property - Turbine No. 28 - South Deuel Wind

Michael,

Thanks for your due diligence in keeping me apprised of updates regarding the Invenergy project connected to the H. Dale and Lorraine M. Grondahl Trust land.

As the Trustee for the Grondahl Trust, I approve of the installation of a mud mat. I have spoken to our tenant, Todd Nielsen regarding these changes. He understands the changes and agrees with the scope of the work.

The surety bond of \$25,000 is acceptable should the project need to be decommissioned.

Deb Jordt, Trustee

Hi Mrs. Jordt,

Thank you for speaking with me over the phone. As discussed, we are intending to install a mud mat for South Deuel Wind's turbine number 28 on your parcel APN #1026, located in the SE1/4 of Section 15, Township 114N, Range 49W, Deuel County, South Dakota.

We will be seeking approvals from the appropriate jurisdictional parties and if received, construction will begin as early as May 18, 2026, and is anticipated to take approximately two to three weeks to complete.

Anticipated Scope of Work: The turbine location area will be excavated, and concrete will be poured for the mud mat. Once the concrete has cured, the mud mat will be back filled.

Can you please help with the following questions?

1. Do you approve of this proposed work?
2. Have you spoken with your tenant, Todd Nielsen, and does he approve of this proposed work?
3. We will be proposing a \$25,000.00 surety bond as financial assurance for decommissioning remediations should the project not move forward and the facilities need to be removed. Is this acceptable to you?

Sincerely,

Michael Iacopetti | Associate, Development

Hi Shirly and Brad,

Thank you for speaking with me over the phone. As discussed, we are intending to install a mud mat for South Deuel Wind's turbine number 11 on your parcel APN #970, located in the SW1/4 of Section 2, Township 114N, Range 49W, Deuel County, South Dakota.

We will be seeking approvals from the appropriate jurisdictional parties and if received, construction will begin as early as May 18, 2026, and is anticipated to take approximately two to three weeks to complete.

Anticipated Scope of Work: The turbine location area will be excavated, and concrete will be poured for the mud mat. Once the concrete has cured, the mud mat will be back filled.

Per our conversation, I spoke with your tenant, Doug Feten, and he approves of this proposed work.

Can you please help with the following questions?

1. Do you approve of this proposed work?
2. We will be proposing a \$25,000.00 surety bond as financial assurance for decommissioning remediations should the project not move forward and the facilities need to be removed. Is this acceptable to you?

Sincerely,
