Ms. Prehn,

This is in response to your message to the South Dakota Public Utilities Commission regarding your concerns with wind projects in Deuel County and your area of the state, including those on and near your land.

A PUC staff member will be contacting you about your specific concern regarding Tatanka Ridge Wind since you reference the ADLS technology in [Condition 37 of the permit](#).

Your message will be posted under Comments and Responses in the Tatanka Ridge Wind docket, EL19-026; as well as in the Deuel Harvest Wind Energy docket, EL18-053; and the current Deuel Harvest Wind Energy South docket, EL24-023.

Thank you for taking the time to write, sharing your concerns with my fellow commissioners and me, and by doing so, prompting PUC staff to follow up on the permit condition.

Kristie Fiegen, Chairperson
South Dakota Public Utilities Commission
