

Rebecca (Becky) Baker

Senior Environmental Project Manager

Becky has over 22 years of experience in environmental resource management activities. Becky has a successful record as a team leader and project manager for infrastructure projects and environmental compliance actions. Her diverse understanding of federal agencies and their regulations allow for her to create a comprehensive list of requirements early in the process, allowing projects to be completed in a timely and cost-effective manner

EDUCATION

Bachelor of Science,
Environmental
Management
(Environmental
Management & Biology),
South Dakota State
University, United States,
2003

INDUSTRY TENURE

22 years
