RE: In the Matter of the Application by Western Minnesota Municipal Power Agency and Missouri River Energy Services For a Facility Permit for an Energy Conversion Facility and Associated Facilities Including an Electric Transmission Line in Deuel County, South Dakota
Docket No. EL25-028

Dear Ms. Mohr:

The Local Review Committee (Committee) for the Toronto Power Plant (Project) to be located in Deuel County near Toronto, South Dakota has completed its final report and is hereby submitting it to the South Dakota Public Utilities Commission (Commission) pursuant to SDCL § 49-41B-10.

The report was prepared with the assistance of the First District Association of Local Governments and the final draft was adopted unanimously by the Committee. Minutes of the Committee's meetings are included in the appendices to the report. It is the opinion of the Committee that the proposed Project will have no significant social or economic effect within the Commission-designated six-mile affected area after the recommended mitigation measures have been taken, including holding informational meetings, using dust mitigation measures, executing haul road agreements, and securing all required permits.

Please contact me if you have any questions.

Sincerely,

Jay Grabow
Chairman, Toronto Power Plant Local Review Committee
Chairman, Deuel County Commission
