

**On February 28, 2025 Montana-Dakota Utilities Co.
filed with the South Dakota Public Utilities
Commission a proposed decrease to Rate 56
which affects all Montana-Dakota Utilities Co.'s
electric customers in South Dakota. The revised
rates and South Dakota rules and regulations are
available in this office for inspection.**

Montana-Dakota Utilities Co.

NOTICE TO CUSTOMERS OF FILING

INFRASTRUCTURE RIDER

On February 28, 2025, Montana-Dakota Utilities Co. (Montana-Dakota) filed its application with the South Dakota Public Utilities Commission (Commission) to update its Infrastructure Rider (IR) rate in accordance with the Company's Infrastructure Rider Rate 56 tariff. The tariff states rates will be revised annually to reflect the projected costs to be recovered through the next year.

The proposed IR rate includes South Dakota's allocation of costs related to the closure of three of the Company's power plants and a true-up amount from the current IR rate, along with other select projects benefiting South Dakota customers but are not recovered in base rates.

Montana-Dakota has requested the proposed IR rate effective with service rendered on and after May 1, 2025, subject to Commission review and approval. This change is only being proposed at this time and will not be effective until Commission action has been taken.

Proposed Infrastructure Rate: \$0.00260 per kWh

If approved, a typical residential customer using 900 kWh would see an approximate decrease of \$1.20 per month, or \$14.40 annually.

For more information, please contact a Montana-Dakota representative at 1-800-638-3278.
