**Re: Revised Annual Update to Infrastructure Rider (IR) Rate 56
Docket No. EL25-007**

Montana-Dakota Utilities Co. (Montana-Dakota) herewith electronically submits a revision to its Infrastructure Rider (IR) Rate 56 submitted February 28, 2025 to correct two errors that were identified during the discovery process. An update to the revenue requirement has been made to reflect an updated depreciation rate for the Cedar Hills SCADA controls project in Exhibit B and to include the 2024 commission expenses in Exhibit C. Montana-Dakota has provided revised attachments to all pages that were impacted by these changes.

The revision resulted in an increase to the revenue requirement of \$2,034. Montana-Dakota now requests approval of the revised Rate 56 (1st Revised Sheet No. 25 of its electric service tariffs) provided in this filing, which replaces the tariff filed February 28, 2025.

The corrected 2025 infrastructure-related costs as allocated to South Dakota are displayed in the table below.

	Revised Filing	Docket No. EL24-008	Variance
Regulatory Asset Recovery	\$392,880	\$392,880	\$0
Proposed Projects	6,097	0	6,097
(Over)/Under Recovery Balance	(42,894)	166,857	(209,751)
Total	\$356,083	\$559,737	(\$203,654)

The above noted costs are proposed to be recovered through the IR rate effective May 1, 2025 through April 30, 2026. The estimated monthly impact to customers will not change from what was filed on February 28, 2025.

Please contact me at (701) 222-7855 or travis.jacobson@mdu.com with any questions.

Sincerely,

/s/ Travis R. Jacobson
