Subject: [EXT] Docket # EL26-003

Hello,

I am resubmitting my email per your request.

I am totally opposed to any rate increases for my electrical service. We are already paying outrageous prices for our electrical service. I have done everything in my power to lower my electric bill by shutting off lights, installing energy efficient bulbs, only buying energy star appliances, etc. Yet my bill keeps going up. Please, no more increases, becoming unaffordable as is.

Thanks
Martin Forster
