Subject: [EXT] EL26-003

I wish to join other's opposition to Black Hills Electric Energy's EL26-003 proposed rate increase. The proposed rate increase is too severe and not something the average customer can accommodate. Black Hills Energy customers have no other provider available and therefore are held hostage, and a rate increase of this magnitude would impose an undue hardship. I request the Commission table the proposed action and not entertain allowing the proposed rate increase to be heard. If the action is not tabled, I request the Commission to soundly vote to not support the action.

Respectfully,

Marilyn Titus
