Dear South Dakota PUC,

This proposed 25% rate increase is outrageous and a huge burden on the tax paying, voting public. At this time of historic economic instability and exploding prices on virtually everything we need to survive, ANY rate increase is a real hardship for everyone except the corporate bullies who control the monopolies on power. Corporate greed is a real threat and your support of corporate greed is absolutely representative of criminal corruption within the PUC. These issues should at a minimum be debated in a public hearing and at best put to a public vote.

Thank you,

Polly Collins
