Please don't let black hills power raise our rates \$25.00 a month. This is a huge increase we have 3 children and do our best to provide everything we can for them. Im a former wildland firefighter and now im on disability because I'm unable to do my job physically and my wife works. Our incomes are not keeping up with rising costs of property taxes, homes, water, gas etc. the way it is. This is not right and unfair increase.
