

OTTER TAIL POWER COMPANY
Docket No: EL26-011

Response to: SD Public Utilities Commission
Analyst: Eric Paulson
Date Received: May 13, 2026
Date Due: May 28, 2026
Date of Response: May 28, 2026
Responding Witness: Cristina Zuniga, Supervisor, DSM Administration - 218-739-8240

Data Request:

What types of lights are covered by the rebates?

Attachments: 0

Response:

Lighting products and systems covered by Otter Tail Power's residential retrofit program primarily include:

1. Hard-wired interior LED fixtures
2. Hard-wired exterior LED fixtures
3. Linear fluorescent lamp to LED linear lamp retrofits
4. Lighting controls (including occupancy and daylight sensors)

Residential customers are eligible for instant rebates when purchasing screw-in LED lamps through participating retailers in Otter Tail Power's upstream LED lamp program, they are not eligible for post-purchase rebates of screw-in LED lamps to avoid any chance of double dipping on incentives (i.e. purchasing discounted, screw-in LED lamps through a participating retailer and applying for a post-purchase rebate).

In new construction applications, residential customers are eligible for interior and exterior hard-wired LED fixtures and lighting controls.

Commercial customers are eligible for:

1. Hardwired interior and exterior LED retrofits
2. Hardwired LED exit lighting.
3. Linear fluorescent lamp to LED linear lamp retrofits
4. Lighting controls, including occupancy sensors, daylight sensors, and luminaire level lighting control systems.

Commercial customers are also eligible for screw-in LED lamps, hard-wired LED fixtures, and lighting controls in indoor and outdoor applications.
