Subject: [EXT] Crowned Ridge Energy Storage Project — EL26-014

Dear Commissioners,

I support the Crowned Ridge Energy Storage project in Codington County. The project is well sited on land already being used for energy generation.

Battery storage is a safe, proven technology that helps make the electric grid stronger and more reliable. By storing energy and making it available when demand is highest, this project can help support South Dakota families, farms, and businesses.

Please approve Crowned Ridge Energy Storage and help move forward responsible energy projects that strengthen our communities and our grid.

Thank you.

Kyleigh Speier,

[REDACTED], Watertown, South Dakota, USA
