RE: Rate QF – Cogeneration & Small Power Production Facilities

Dear Ms. Mohr:

MidAmerican Energy Company (“MidAmerican”) transmits the accompanying electric tariff sheets for filing:

South Dakota Electric Tariff Schedule No. 2

Section No. 3

7th Revised Sheet No. 65

7th Revised Sheet No. 66

Canceling 6th Revised Sheet No. 65

Canceling 6th Revised Sheet No. 66

Effective: August 15, 2026

Enclosed herein for filing are revised tariff sheets to update the Rate QF - Cogeneration and Small Power Production Facilities (“Rate QF”) tariff to reflect MidAmerican’s current avoided costs for the 12-month period beginning August 2026. The energy and capacity credits are based on the marginal energy cost and the market value of capacity cost data used to produce MidAmerican’s 2026 PURPA Avoided Cost Report filed previously and attached for reference.

The market dispatch methodology used to calculate the energy credits is the same as the methodology used in MidAmerican’s 2024 avoided cost rate filing.

MidAmerican currently has three customers taking service under Rate QF. One of them began taking service under Rate QF in December of 2023, and the other two in December of 2024. Since MidAmerican’s filing in 2024 (EL24-022), MidAmerican also received one additional inquiry about interconnection options. That customer has since completed the interconnection process but chose to simply offset their usage rather than taking service under Rate QF.

Pursuant to ARSD 20:10:13:17 and ARSD 20:10:13:19, MidAmerican will give individual notice of proposed changes to all affected customers within 30 days of this filing.

Please contact me at (563) 657-6143 or diana.votino@midamerican.com and regulatedpricing@midamerican.com if you have any questions.

Sincerely,

/s/ Diane Votino
