Dear Mr. Felderman,

Enclosed are two copies of the Consent and Agreement for Exception to Electric Service as per the request of Corey Baruth. This consent allows Dakota Energy Cooperative to provide single phase electric service to a new residence located in Central Electric's assigned service territory. Attached Exhibit "A" illustrates Central Electric's service territory, the point of service, and the location of Dakota Energy and Central's closest electrical distribution lines.

If you approve the Consent and supporting exhibits, then date and sign both copies, retaining one for your records and returning the other copy in the enclosed self-addressed envelope. Central Electric will submit the signed Consent along with the exhibit, the letter requesting service by Corey Baruth, and your letter to provide electric service dated August 7th, 2026 to the South Dakota Public Utilities Commission for their consideration and approval. Please call me with any questions or requirement for additional information.

Best Regards,

Ryan Mueller
General Manager
