Regarding: Transmission Line from

Big Stone Substation Transmission Line to North Dakota

EL26-026

Sirs and Madams:

We received a notification of a proposed project of above ground transmission lines that impacts our property. We are not opposed to this project but want to alert everyone involved that there is a family cemetery on that property. We request that the line pole placement respect this space and do want to let you know that we are likely to expand the fenced in cemetery space in the future.

Thank you for your consideration of our sacred space.
