**Re: Transmission Cost Recovery Rider Rate 59
Copy of Bill Insert Reflecting Approved Rates Docket No. EL26-005**

Dear Ms. Mohr:

Montana-Dakota Utilities Co. (Montana-Dakota or Company) herewith electronically submits a copy of the bill insert that will be included with customers' bills following Commission approval of the proposed Transmission Cost Recovery Rider (TCRR) rate in the above referenced docket.

The Company has historically included two inserts in customers' bills surrounding a change in its TCRR rate. The first insert was included as Attachment F to the February 27, 2026 filing and reflects the insert included with customers' bills the month following the Company's application. The insert serves to notify customers of the Company's request to the Commission to change its TCRR rate. The second insert included with customers' bills follows Commission approval and is included with bills reflecting the new rates and is attached hereto. This second insert reflects the six levels of consumption, the bills at the new and prior rates, the difference between those rates and the percent change. The second insert is subject to change from that filed due to changes in rates that may occur between the time of the TCRR filing and final approval of the TCRR rates that are reflected in the new and prior bills. The Company will include both inserts in its TCRR filings going forward.

Please contact me at (701) 954-9072 or tyler.culbertson@mdu.com if you have any questions regarding this submittal.

Sincerely,

s/ Tyler J Culbertson
