**Re: In the Matter of Otter Tail Power Company's Petition for Approval of a
New Class for Very Large Customers and Associated Rate Schedules
Docket No. EL26-021
Tariff Revisions**

Dear Ms. Mohr:

On July 27, 2026, the Company submitted an Initial Filing in the matter referenced above. Following discussion with South Dakota Public Utilities Commission (Commission) Staff, Otter Tail Power Company (Otter Tail Power or Company) hereby submits to the Commission revised tariff sheets and an updated Attachment 1.

The following updates have been made:

- **Section 10.04 – Large General Service – Tier I** was revised to correct the applicability threshold. The tariff now reflects customer loads of less than 25,000 kW, rather than less than 2,500 kW, to align with the proposed Very Large Customer tariff structure.
- **Section 10.05 – Large General Service – Tier I – Time of Day** was revised to replace references to 25 MW with 25,000 kW. This change does not alter the applicability or intent of the tariff and was made solely to ensure consistent terminology and unit references throughout the tariff sheets.
- **Section 10.06 – Large General Service – Tier II – Time of Day** was updated to present all proposed changes in a consolidated redline format. This revision eliminates the previously filed cancelled and reserved versions of the schedule and clearly displays the proposed Large General Service - Tier II – Time of Day rate schedule applicable to customers at or above 25,000 kW.
- **Section 10.07 – Large General Service – Tier III – High Power Compute** was supplemented with a redline version of the newly proposed rate schedule.

- **Section 10.08 – Large General Service – Marginal Rate** was revised to include the content previously contained in approved Section 10.06 (Super Large General Service). Updated redline and clean and redline were prepared to clearly show the relocation of this existing content.
- **Section 10.09 – Large General Service – Thermal Market Energy Pricing** was revised to clearly show the relocation of the content previously contained in Section 14.16.
- **Attachment 1** was updated to reflect these updates.
