

**NorthWestern Energy
Docket GE15-002
South Dakota DSM Filing**

**South Dakota Public Utilities Commission
First Data Request (1-1 – 1-11)**

Data Requests received August 13, 2015

- 1-7) Please provide a red-lined version of Appendix A in order to clearly identify what programs were removed and what programs were added.

RESPONSE:

See Attachment 1-7 for red-line comparisons of Year 1 (period ending June 30, 2015) rebate program measures and Year 2 (July 1, 2015-June 30, 2016) rebate program measures for existing homes or businesses. In Year 2, some measures have been removed or rebates for individual measures have been reduced. Some new measures have been added as well.

Additionally in Year 2, custom incentives through the Efficiency Plus Business Partners Program for new and existing commercial facilities have been added. Because this is a custom offering for electric and/or natural gas customers, no measures are listed for these programs.

The Residential and Commercial Electric New Construction Programs are also added in Year 2. As explained in response to Data Request 1-8, the Residential and Commercial Natural Gas New Construction Programs planned for introduction in Year 2 will not be offered. Since these two natural gas new construction programs had not been introduced yet and are not planned for introduction in Year 2, these programs are not listed in the red-line comparison.
