MidAmerican Energy Company  
First Data Request

Responder Name: Scott deBlois / Julie Swisher  
Job Title: EE Product Managers  
Phone: 563-333-8148 / 563-333-8829

## 1-2 **South Dakota Data Request**

On Page 6 of Exhibit A, please remind staff what “CES project review electric incentive” is for.

### **Response:**

The Commercial Energy Solutions (CES) Project Review is a type of audit measure that assists customers with project implementation. It is the next step after the assessment, but occurs prior to projects being installed.

CES Project Review benefits include helping customers understand project recommendations found in the audit report, customer consultation regarding equipment purchasing and planning decisions, and technical expertise for customer projects once the appropriate energy efficiency alternatives have been selected.

All electric and natural gas savings are recorded when the projects are installed in the field.
