1-10 South Dakota Data Request

Referring to page 19 of Exhibit 1, was a process review and impact review conducted for MidAmerican's 2013-2017 Energy Efficiency Program? If so, please provide a copy of the report produced as a result of program review.

Response:

Due to the limited number of participants and to be efficient with the use of South Dakota rate-payer dollars, separate process and impact reviews were not conducted for MidAmerican's South Dakota 2013-2017 Energy Efficiency Plan. However, all South Dakota participants are included in the sampling processes used to conduct the process and impact reviews for MidAmerican's Iowa Energy Efficiency Plan. R1-10 Attachments 1 and 2 are the final reports for the two programs included in the South Dakota Plan that process and impact reviews have been completed. The remaining four program reports will be available in early 2018.
