3-1. How many customers are or will be subject to disconnection at the end of the disconnection moratorium?

Response:

As of July 1, 2020, MidAmerican had a total of 2,234 customers in arrears and potentially subject to disconnection in all revenue classes. Although MidAmerican does not have data available by service type, ninety-five percent (95%) of MidAmerican's South Dakotas customers are natural gas customers and five percent (5%) are electric customers. Therefore, the estimated natural gas customers subject to disconnection are 2,122 and 112 electric customers.

MidAmerican does not disconnect all customers with past-due amounts, to be subject to disconnection the past due balance must be \$200 or greater. The total customers' eligible for disconnection above includes only customers with a balance of \$200 or greater.
