- 1-3. The red line item on page 18 says ‘In addition to the electric rates listed on these pages, the following charges* may also be applicable. Provide an example of when the ECA, TCR and state and local taxes won’t be applied?’

Response

Technically, the ECA and TCR apply to all electric rates. However, because these clauses are charged on a kWh basis, if a customer has zero usage or extremely low usage that causes the total charge for the clause to be less than \$0.01, the applicable clause would not be listed on the bill. State and/or local sales taxes are not applied if the customer is considered an exempted entity under the provisions of the South Dakota Code and/or the applicable municipal ordinance.
