GW17-002

Public Utilities Commission

This letter pertains to the matter of the PUC taking receivership of the H&I grain issue. I am a producer that lost money when H&I became insolvent. I am also a business owner in DeSmet SD. Area producers not being able to get paid by H&I Grain has had a huge affect on our areas economy. Taking thatr amount of money out of a rural trade area has affected our entire town. Please take receivership of the H&I Grain issue we need your help.
