Subject: RE: [EXT] South Dakota License

Dallas,

We are not arguing that you have your application fee, application, and bond in to our office. The issue is that your financial statements provided to our office don't meet minimum requirements to obtain a grain buyers license. Attached below is the statute if you would like a hearing before the commissioners to have them decide on granting you a grain buyers license you may request a hearing at the next available commission meeting. The next available commission meeting is December 21, 2021. You will need to request a hearing before December 13, 2021 for proper notice.

We will wait for all documentation of your purchases as requested in the previous email. Let me know if we can assist in any other way.

Thank You

Cody Chambliss

49-45-7. Application for license--Contents--Issuance or denial--Multiple warehouses of licensee.

An application for a grain buyer license shall be filed with the commission and shall be in a form prescribed by the commission. The application shall set forth the name of each owner or principal in the management of the business and shall contain financial information depicting the financial condition of the business at the time of application. If the applicant is a corporation, the application shall include the name of the president, secretary, and treasurer of the corporation. The application shall also include the location of the principal office or place of business and any additional place of business of the applicant. The application shall contain the affirmation statement set forth in § 22-29-9.1. The application shall be signed by the owner, managing partner, or chief executive officer of the applicant and shall be notarized.

Upon receipt of an application and sufficient bond as required by § 49-45-9, the commission may grant the license applied for or may, for good cause shown and after notice and an opportunity for hearing, deny the issuance of the license.

If a grain buyer has more than one grain buying facility in the same municipality, only one license is required for all the grain buying facilities.

Dallas,

As discussed on the phone earlier today your company Dallas Langley Trucking was denied a grain buyers license for South Dakota for financial reasons. Please see the attached letter that was mailed to your office September 30, 2021. With the aggression you showed over the phone today I'm led to believe your company has been purchasing grain in South Dakota without proper licensing. We would like records of all South Dakota grain purchased from July 1, 2021 to November 30, 2021. These records should include scale tickets, and assembly sheets along with proof of payment. Please see attached Statute below for requesting records you have five working days to provide our office with the requested documentation of grain purchased from South Dakota to avoid additional penalties.

49-45-26. Time and place for providing requested records--Violation as misdemeanor--Civil fine.

A grain buyer, whether licensed or unlicensed, who purchases grain within the state shall have the ability to provide all of the books, accounts, and electronic records relating to the transactions of the grain buyer, either within or without the state, upon request or within **five working days** of the request. Any requested materials shall be provided to the inspector at a licensed location within the state or

at the offices of the commission. A willful violation of this section is a Class 1 misdemeanor.

In addition, the commission may assess a civil fine in an amount not to exceed one thousand dollars for each day requested materials are withheld up to a maximum of twenty thousand dollars.

Feel free to contact Paul or myself with questions.

Thank You
