Re: TransCanada Keystone Pipeline Liaison Quarterly Report, Docket HP09-001

Dear Ms. Van Gerpen:

I attach for filing KXL Pipeline Project South Dakota Public Utilities Commission Liaison Quarterly Report for year end 2021.

Yours very truly,

WOODS, FULLER, SHULTZ & SMITH P.C.

A handwritten signature in blue ink that reads 'James E. Moore'.

James E. Moore

Attachment

KXL Pipeline Project
South Dakota Public Utilities Commission
Liaison Quarterly Report
2021

Year End 2021
July 01, to Dec 21, 2021

Table of Contents

1.	Project Overview	3
2.	Issue Tracking and General Liaison Activity	3
3.	Summary.....	3

1. Project Overview

On June 9th, 2021 TC Energy terminated the KXL Pipeline Project. TC Energy has ceased conducting pre-construction activities including pursuing remaining outstanding permits; interfacing with landowners and acquiring necessary land rights; procuring pipe, materials and equipment, and other long lead-time items; and inspecting and refurbishing workforce camp modules, pipe and associated materials and equipment previously purchased. TC Energy is maintaining environmental protections as required by permits and best management practices. All field offices are closed. However, KXL officials, as well as the Liaison, are available by phone to address landowner and other stakeholder questions and concerns.

2. Issue Tracking and General Liaison Activity

During the third quarter of 2021 there were 5 contacts to the Liaison, two were landowners. One was a follow up from the previous quarter, regarding a Meade county road. The other landowner contact was via email, looking for information from the land department related to the status of the easement on their property. There was one contact from a news outlet in Montana, looking for an update on the project status in Phillips County, MT. This inquiry was referred to the company communications department. The final two contacts were from parties with questions regarding the general status of the project.

No formal meetings were held during the third quarter. There were regular update calls and emails with the SD-PUC staff related to the general project status. There were no vendor calls. There were no issues of concern being tracked into the fourth quarter of the year.

There were no calls, meetings or contacts with the Liaison during the fourth quarter to date.

3. Summary

The number of contacts to the Liaison in the third quarter were similar to those of previous quarters and were primarily related to the general status of the project. There were a few correspondences between the liaison and SD-PUC staff related to project status. The landowner contacts were related to easement questions and a follow up on the road concern from the second quarter. There were no issues being tracked into the fourth quarter.

There were no contacts to the Liaison during the fourth quarter of 2021 and there are no items being followed.
