SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

To whom it may concern,

I am a concerned citizen who strongly believes the Navigator Pipeline and Summit Carbon Solutions are not public entities.

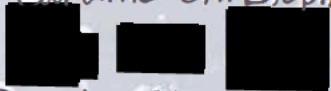

Therefore, private property should not be seized ~~for~~ for private gain. Eminent domain is for governments to be able to provide for a public need and only with just compensation for the landowner.

PUC Commissioners take an oath to the Constitution, which protects the rights of the citizens, not economic development.

Easements once granted are forever. Intimidating property owners to give up their private land for this pipeline is not acceptable.

Please refresh yourselves on our Constitution and its significance in protecting us as citizens and ^{our} free individuals with clear rights. Respectfully, Caroline Christopherson
