Subject: RE: [EXT] CO2 Pipelines Discussion

Hi Gary – just following up here, we wanted to see if you had any availability this week or next week for a short (30-minute or less) call with our analyst team. The call would not be recorded or used for attribution, and we would be happy to forward questions prior to the discussion also.

Please let me know if this would be possible.

Best,

Hunter

Subject: CO2 Pipelines Discussion

Hi Commissioner Hanson,

I work for Capstone, a management consulting firm in DC with an emphasis on regulatory policy.

We are interested in learning about the permitting process for CO2 pipelines in the South Dakota. For example, what other permits do CO2 pipelines like Summit Carbon and Navigator CO2 need besides a siting permit?

Would you, or someone from your team, be willing to speak with members of our analyst team regarding this issue? We can keep the call to 30-minutes or less and it would not be recorded.

Please let me know if this would be possible.

Thank you,

Hunter
