Re: CO² Pipeline / Eminent Domain

To Whom It May Concern, Public Utility
Commissioners

I am writing this letter due to my
extreme concerns over the "load grab",
i.e. Eminent Domain issues in regards
to the "Green New Deal" CO² pipelines.

Navigator and Summit are private
companies, unless eminent domain relates
to public utilities for the greater good
of the citizenry. I ask that you
look out for the citizens of SD and
please do NOT permit the construction
of the of these CO² pipelines.
(over)

Common domain should always
be a LAST resort and used only for
Public benefit! The government of
which the PUC is a part of is
to protect the rights of its Citizens!

Thank You for NOT permitting
these projects.

Sincerely,

Scott Bonaguidi
