Message Body:

Mr. Nelson, I am a registered republican, I have voted straight down ballot for every republican that has been on a ballot before this, including you. Come November 8th, I will no longer be able to state that any longer. Your support of the carbon pipeline going through my family's back yard, and around towns in eastern South Dakota is unsupportable. If this was 1/2 mile from your home, I wonder if you would still be in favor of it.

I'm sure you don't think it will happen, but as im sure you are aware, underground utilities are hit and just plain fail all the time, despite our efforts to prevent it. This is unsafe.

Randal Smith,
Rural Dell Rapids SD.
