Rep. Schaeffbauer,

Thank you for your letter regarding an Environmental Impact Assessment for the pipeline siting dockets open before the South Dakota Public Utilities Commission, [HP22-001](#) and [HP22-002](#). My fellow commissioners and I will be contemplating this and many other considerations as we begin the first pipeline siting permit evidentiary hearing next week, for Navigator Heartland Greenway, LLC.

This [Pipeline Siting Information Guide](#) and [Contact PUC](#) tab on the commission's website may be helpful concerning the processing of dockets and communications on dockets. Since your letter concerns dockets open before the commission, your letters will be posted under Comments and Responses in HP22-001 and HP22-002.

Kristie Fiegen, Chairperson
South Dakota Public Utilities Commission
