

8/3/2023

Dear Public Utilities Commissioners-

To Whom it Concerns -

It is unconstitutional, not to mention unAmerican and immoral to use eminent domain for confiscating private property for private (companies) gain. It's unconscionable to think this could be happening in the great state of South Dakota. History will not look over this trampling of people's rights.

There have been inadequate explanations for this land grab + inadequate safety assurances. - all this for unproven green agenda - to benefit the few and powerful at the expense of our families.

Sincerely,

Tiffany Roek
