From: The South Dakota Chamber of Commerce and Industry

Subject: HP22-002

Dear South Dakota Utilities Commission members,

The South Dakota Chamber of Commerce and Industry has heard a presentation from Navigator CO2 Pipeline Company regarding its plans referred to as the Heartland Greenway.

Navigator CO2's Heartland Greenway is one of the first large-scale, commercially viable carbon capture projects to be developed in the United States.

The South Dakota Chamber of Commerce and Industry believes this project advances a public policy that is in the public interest of South Dakota.

Respectfully,

**David Owen, President**

South Dakota Chamber of Commerce and Industry
