**Payroll Adjustment**

1-2. How many producers of renewable gas are currently injecting biogas into MidAmerican's system or are proposing to in Iowa?

**Response:**

Currently, there are no producers of renewable gas injecting into MidAmerican's system. There are two ongoing projects in Iowa with plans to inject renewable gas into MidAmerican's system in the future. MidAmerican has also received inquiries about injecting renewable gas into MidAmerican's system from a few additional interested parties.
