Ms. Patricia Van Gerpen, Executive Director
South Dakota Public Utilities Commission
State Capitol Building
Pierre, SD, 57501

Dear Ms. Van Gerpen:

Re: Revised Gas Transportation Tariff Change - Fuel Retention Percentage

Dear Ms. Van Gerpen:

NorthWestern is submitting a revision to its fuel retention percentage as filed in Docket NG20-007. This revision corrects the inadvertent omission of two customers that should have been included in the large volume customer group that uses the 0.54% rate. While this large volume customer fuel rate had historically applied to just one customer, there are two new customers in this group now, due to the expiration of their original contracts with deviation. The increase in volumes for this group decreases the volumes charged to the distribution system customer group. This correction results in a reduction to the distribution system customer rate from 2.08% to 1.86%.

Sincerely,

Jeff J. Decker
