

**Docket Number:** NG25-004  
**Subject Matter:** First Data Request  
**Request to:** MidAmerican Energy Company (MidAmerican or Company)  
**Request from:** South Dakota Public Utilities Commission Staff  
**Date of Request:** August 11, 2025  
**Responses Due:** August 25, 2025

- 1-1. Refer to the 2025 Proposed Budget.
- a. Describe what is referred to as “NSC - Drone” and explain how it supports MidAmerican’s economic development efforts.
    - a. This is related to MidAmerican’s support of drone footage of the Flynn Business Park in North Sioux City that was used by the North Sioux City Economic Development Corporation in its digital marketing of the business park. MidAmerican supported the drone footage through our EA365 program that includes funding for site readiness initiatives led by our local economic development partners.
  - b. What does MidAmerican currently plan for “Miscellaneous Opportunities” and how does it support MidAmerican’s economic development efforts?
    - a. Invariably MidAmerican receives funding requests to support local economic development work led by our local partners. We left room in our 2025 budget to support these unanticipated requests to enable us to meet community needs as they arise.
